### **DETAILED ACTION**

1. This is the second Office action on the merits of Application No. 10/533,954, filed 31 August 2005. Claims 31-60 are pending.

#### **Documents**

2. The following documents have been received and filed as part of the patent application:
  - Three Foreign Priority Documents, received on 05/04/05
  - Information Disclosure Statement, received on 05/04/05
  - Declaration and Power of Attorney, received on 08/31/05
  - Drawings, received on 10/25/07

#### ***Drawings***

3. The drawings were received on 25 October 2007. These drawings are approved.

#### ***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. **Claims 41-50 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.**

Claim 41:

- Line 3 recites the limitation “a parallel manner”. It is unclear which parallel manner that the claim limitation is referring to.
- Line 9 recites the limitation “a first mode of operation”. It is unclear whether this newly recited "a first mode of operation" is part of the two modes of operation, which is recited on line 2 of claim 41.

***Claim Rejections - 35 USC § 102***

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. **Claim 41 is rejected under 35 U.S.C. 102(b) as being anticipated by U. S. Patent No. 6,081,042 to Tabata et al. (hereinafter referred to as Tabata).**

Claim 41:

Tabata (i.e., Figs. 1-3; column 10, line 10 – column 12, line 8) discloses a hybrid drive system comprising:

- A first power train (i.e., Fig. 1, element 24);
- A second power train (i.e., Fig. 1, element 22);
- A third power train (i.e., Fig. 1, element 20);
- A first planetary gear set (i.e., Fig. 1, element 16);
- A second planetary gear set (i.e., Fig. 1, element 34);

- A third planetary gear set (i.e., Fig. 1, element 32);
- Wherein the third planetary gear set (32) is in series with the first planetary gear set (16) of the first power train (24);
- A plurality of adjusting means (i.e., Fig. 1, being the clutches and brakes)
- A plurality of modes of operation (i.e., Fig. 3); and
- Wherein, in a first of the plurality of modes of operation (i.e., Fig. 3, being the 4th speed ratio), a sun gear, a ring gear, and a planet carrier of the third gearset are spinning at the same speed.

Note:

It should be noted that the recitation "*wherein constituent elements thereof are distributed between two power trains connecting an internal combustion engine in a parallel manner to wheels of a vehicle, including two epicyclic gearsets, two electric machines, one reducing stage, and adjusting means that distribute power between the two power trains differently depending on the mode of operation thereof*" has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).

*Allowable Subject Matter*

8. Claims 31-40 and 51-60 are allowed.
9. Claims 42-50 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

*Response to Arguments*

10. Applicant's arguments with respect to claim 41 have been considered but are moot in view of the new ground(s) of rejection.

*Conclusion*

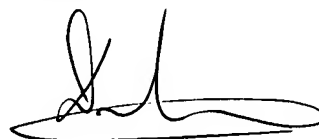

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
